2. Investment Strategies Overview

Unico offers various investment strategies with different risk and return profiles. These include, but are not limited to:

Conservative strategies – lower risk, lower potential returns.

Moderate strategies – balanced risk and return.

Aggressive strategies – higher risk, higher potential returns.

Each strategy is designed for a minimum period of **three (3) months or longer**. Short-term performance may not reflect the strategy's expected returns. Negative months may occur, and temporary losses are possible.

The Client acknowledges that:

The stated minimum and maximum return percentages for each strategy are average values.

To achieve these average values, the selected strategy must be maintained for at **least one (1) year**.

Short-term results may significantly deviate from these values due to market fluctuations.
